

WINE BY THE GLASS

RETSINA

3oz | 9oz

with roots that date at least back to 200 b.c.e., retsina is greece's most iconic wine as well as it's most misunderstood. for centuries, retsina has been made by a unique method that consists of blending the wine with sap from the aleppo pine tree, an ingredient with preservative qualities to prevent spoilage. historically, most retsina was made from the typically uninteresting savatiano variety as the pine resin would cover up what was a low quality wine to begin with. today many of greece's top producers are giving retsina a second look, but this time making the wine in a more balanced style and from high quality varieties like roditis and assyrtiko. great retsina is greece's ultimate aperitif; think of it like greece's answer to vermouth and drink it chilled!

CHAMPAGNE & SPARKLING WINE

CHAMPAGNE | GRAND MARQUE CHAMPAGNE

the top "grande marque" houses have set the benchmark for consistency and quality in champagne. rarely are their "tete-de-cuvees" eclipsed in their ageworthiness and overall elegance by the grower producers, who are often considered more fashionable than the big houses since arriving on the scene in the last 30 years.

CHAMPAGNE | GROWER CHAMPAGNE

many (but not all) of the champagnes listed in the following sections are made by small growers producers, named for the simple fact that all of their wines are created from grapes which they farm themselves. unlike the grand marques, who purchase a majority of their fruit from many villages across the large champagne region, growers usually focus on one village (or terroir). these exciting producers offer an opportunity to taste the many terroirs of champagne side by side, which is invariably masked in blends from the large houses. the very best growers are making wines that give the large houses a run for their money.

CHAMPAGNE | CÔTE DE BLANCS

a thin band of white chalky soil emerges in this tiny region of champagne and allows for the greatest blanc de blancs champagne to be made. wines from the grand cru villages of le mesnil-sur-oger and avize are the crème de la crème, but they are trailed closely behind by oger, cramant, oiry, cuis, vertus, and chouilly.

CHAMPAGNE | MONTAGNE DE REIMS

if the cote de blancs produces the most delicate and ethereal wines in champagne, the montagne de reims (where pinot noir reigns supreme) produces its most powerful. montagne de reims wines have the versatility to pair through an entire meal. bouzy, verzenay, ambonnay, and verzy are villages that stand above the rest.

CHAMPAGNE | VALLÉE DE LA MARNE

the cool valley created by the marne river is the perfect climate for pinot meunier. historically seen as just a blending grape, many producers in this region are showcasing its ability to stand alone. cumieres, ay, and mareuil-sur-ay are the the most important villages of the marne, with bisseuil, romery, and avenay-val d'or emerging as "ones to watch".

WHITES OF THE MEDITERRANEAN

the mediterranean was the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties on earth are indigenous to the mediterranean, and we believe that these wines are natural accompaniments to great mediterranean ingredients found on our menu.

LEBANON

it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous to. gaston hochar, inspired by his friend roland barton to plant vinifera grapes in lebanon, returned with cuttings from château leoville barton. for his white grand vin he sourced grapes local to lebanon, obadieh and merwah, which are thought to be related to chardonnay, semillon, and chasselas. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).

GEORGIA

the birthplace of winemaking. as the world of wine modernized around it, georgia remains mostly unchanged. many of the leading producers still make wine with the same methods they always have: employing extended skin contact (on whites) during winemaking, usage of clay amphorae (qvevri), making wine "naturally" without any artificial adjustments, and devotion to their unmistakably unique grape varieties. all of these techniques have recently become fashionable in many other countries, however, georgia was the first: long before they were popular.

SOUTHERN ITALY | SICILY, SARDEGNA, CAMPANIA, ABRUZZO

when the greeks arrived in italy, they originally named it oenotria: land of the vine. in ancient rome, the most prized wines in all of italy (i.e. falernum, alban, caecuban) were produced south of rome. these wines were the original grand crus of the wine world.

SPAIN | JEREZ DE LA FRONTERA

sherry, one of the world's greatest wines, is one of its most closely guarded secrets. no other wine has the same spectrum of possibilities. sherry can be the driest of wines, and it can also be the sweetest. its color can be almost water white in color, or as dark as a guinness. there are many styles of sherry, and each one is unique.

SPAIN | BALEARIC ISLANDS

according to pliny the elder, in the age of antiquity the wines of mallorca were "comparable to some of rome's finest". Following the phylloxera epidemic of the 1800's, mallorca's vineyards were uprooted and replanted to pistachios and almonds. today there is renewed interest in this island due to its unique set of indigenous grape varieties grown nowhere else.

FRANCE | PROVENCE, RHONE, AND LANGUEDOC-ROUSSILLON

the greeks founded marseilles in 600 bce. it is generally accepted that this was the first true wine region in modern day france. though, for millenia wines from the "sud" have been prized, in post wwii-europe they were forgotten about due to neglect and overproduction. today these regions have awakened and are sources of incredible whites, rich in both aroma and texture.

WHITES OF CONTINENTAL EUROPE

the top wine regions of continental europe exist as a result of the church and its desire to expand. starting in the middle ages, wine became an integral component of the sacrament and followed catholicism through its expansion. some of the most iconic wines of the world including burgundy, champagne, alsace, and the mosel have the catholic church to thank.

FRANCE | BURGUNDY

by 910ce benedictine and cistercian monks found themselves in burgundy tending vines under charlemagne. the vineyards were slowly delineated, and the best wines went to the church. many of the vineyards, documented centuries ago, still produce some of the most sought after wines in the world.

THE BACKROADS OF BURGUNDY

SAINT-AUBIN

this overlooked commune for white burgundy ironically "overlooks", some of the greatest chardonnay vineyards in the world. you can even throw a stone from certain vineyards in saint-aubin right into chevalier-montrachet grand cru... just down the hill.

SPAIN | GALICIA

just as the church brought the wine grape to northern europe, it also brought the wine grape into the iberean peninsula after an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century as the moorish rule began to collapse. devout catholics traveled from as far as modern day czech republic to reach st. james' reputed buirial site at santiago de compostela in galicia. along the way, grape vines were planted for sacramental purposes and many grapes in spain today likely came from countries along this journey.

SPAIN | CATALONIA AND BASQUE COUNTRY

though technically part of spain, catalonia and basque country consider themselves independent and have on several recent occasions attempted to secede from the rest of spain. this basque corner of spain has a unique cultural identity, and this is exemplified by its unique cuisine, ciders, and wines.

SPAIN | RIOJA

rioja is renowned for its legendary, long lived reds. its whites, based on viura and malvasia, are lesser known as they comprise a minor proportion of thew regions wines. however, the best of them are equally long lived and perhaps the most ageworthy dry white wine made anywhere.

PORTUGAL | AZORES ISLANDS

during the age of exploration, the azores were discovered along the journey to the new world. wine from the island of pico was already prized and sold as far away as st. petersburg starting in the 16th century, long before winemaking on the more famous island of madeira had been perfected. after a long period of obscurity, the wines from the volcanic azores are starting to make serious waves as a new terroir for wines of the mid-atlantic.

ROSÉ WINES

historically, rose has been viewed as a simple wine. and though there are "simple" roses (just as there are also simple whites and reds), there are also roses as compelling, ageworthy, and terroir driven as their friends of other colors. the mediterranean is a hotbed for distinct styles of rose, spanning those which are salmon in color, to some that might be confused for a very light red.

REDS OF THE MEDITERRANEAN

the mediterranean is the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and, by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties on earth are indigenous to the mediterranean, and we believe that these wines are natural accompaniments to great mediterranean ingredients found on our menu.

LEBANON

it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous to gaston hochard, inspired by his friend roland barton to plant cabernet-sauvignon in lebanon, château leoville barton. gaston also planted cinsault and carignan to complete the blend. the resulting wines are spicy, powerful, returned with cuttings from and age effortlessly. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).

ITALY

before 1861, hundreds of city states comprised what we now refer to as Italy. look no further than the cuisine and wines of these former city states to see that every region has a distinct cultural identity. combined, over 475 grape varieties (many of which are planted nowhere else) span Italy's length, which is longer than Texas! although latitude plays an important role in the styles of wines that are made in each region, equally impactful is a region's proximity to the coast. below, we separate the coastal areas which share more in common with other mediterranean regions (like Greece and southern France) from inland ones which share more in common with cooler continental regions (like Burgundy and Rioja).

pope boniface viii (famously depicted in the eighth circle of hell in dante's inferno) set off a chain of events that changed the french wine landscape forever. in 1309 ce, the avignon papacy was born as a result of his feud with king phillip iv, ultimately resulting in his abduction and death. the papacy split and avignon pope (john xii) thereafter developed a papal vineyard: châteauneuf-du-pape (chateau of the new pope). this is the premier region in the world for grenache, blended with up to 17 other indigenous grape varieties.

FRANCE | NORTHERN RHÔNE VALLEY

in the 17th and 18th century, the wines of hermitage were sold at prices dwarfing what are now first growth bordeaux estates. famously, some bordeaux producers at the time added rhone wines to their blend to add strength and complexity. today the wines of the northern rhone are incredibly undervalued given they demonstrate the height that syrah is capable of.

red burgundy has an impressive ability to age for decades... but impatience also has its rewards. the following pages follow the specific villages of burgundy north to south, all of whom produce unique and distinctive wines. but first, this page celebrates the emerging regions of burgundy, which often produce delightfully rustic wines despite being less well known.

THE BACKROADS OF BURGUNDY

the best domaines make equally great wines from humble vineyard holdings as they do with their grand crus. the producers below are making exciting wines from up-and-coming areas in burgundy.

gevrey is the northernmost bastion for truly fine red wines in burgundy. its 26 premier crus and 9 grand crus specialize in wines that are full bodied and muscular. these are pinots with darker, smokier, and earthier fruit tones than you'll find anywhere else on the cote. the best examples include armand rousseau, fourrier, and bachelet... but the good news is, there are too many to count!

BONNES MARES GRAND CRU

this powerful wine is paradoxically the one of the quintessential chambolle wines, and simultaneously, the antithesis of the typical chambolle-musigny. bonnes mares wines are rich, tannic, and muscular. a burgundy that can pair with even the richest of dishes.

musigny has the capability to produce burgundy's most ethereal wines. only at times is it eclipsed by la tache, chambertin, and romanee-conti. these wines are delicate in body but powerfully aromatic, and they age effortlessly.

VOUGEOT

located between chambolle-musigny and vosne-romanee, this small village has more grand cru land in proportion to its size than any other village in burgundy. in addition to the grand cru, this village also boasts four spectacular premier cru vineyards.

CLOS DE VOUGEOT GRAND CRU

the largest grand cru of the cote de nuits and also the source of its most inconsistent wines, this single vineyard has over 80 owners, some of whom produce wines not deserving of a grand cru status. however the best of them can hold their own against some of the more fashionable grand cru wines.

the king of the hill. this is the heart of burgundy, and more frequently than any other village, is the source of its greatest wines. vosne encompasses 24 premier crus and 8 grand crus, some of whom quite literally are the source of the rarest wines on earth. burgundy's greatest producer, domaine de la romanee-conti, is based here along with many other great domaines like anne gros, francois lamarche, comte liger-belair, sylvain cathiard, and emmanuel rouget.

it wasn't until the 17th century that the most sought after bordeaux vineyards were planted. the reason? they were under water! specialists in manipulating waterways, the dutch traders decided to drain the marshes and swampland of the left bank so that they could expedite the transportation of bordeaux wine. a happy accident occurred when they realized what was underneath.

REDS OF CONTINENTAL EUROPE

SPAIN

just as the church brought the wine grape to northern europe, it also brought it back into the iberean peninsula after an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century as the moorish rule began to colapse. devout catholics traveled from as far as modern day czech republic to reach st. james' reputed buirial site at santiago de compostela in galicia. along the way, grape vines were planted for sacramental purposes and many grapes in spain today likely came from countries along this journey.
