

## WINE BY THE GLASS

### RETSINA

3oz | 9oz

*with roots that date at least back to 200 b.c.e., retsina is greece's most iconic wine as well as it's most misunderstood. for centuries, retsina has been made by a unique method that consists of blending the wine with sap from the aleppo pine tree, an ingredient with preservative qualities to prevent spoilage. historically, most retsina was made from the typically uninteresting savatiano variety as the pine resin would cover up what was a low quality wine to begin with. today many of greece's top producers are giving retsina a second look, but this time*

## CHAMPAGNE & SPARKLING WINE

### CHAMPAGNE | GRAND MARQUE CHAMPAGNE

*the top "grande marque" houses have set the benchmark for consistency and quality in champagne. rarely are their "tete-de-cuvees" eclipsed in their ageworthiness and overall elegance by the grower producers, who are often considered more fashionable than the big houses since arriving on the scene in the last 30 years.*

TAITTINGER <i>COMTES DE CHAMPAGNE 2011</i>	488

## CHAMPAGNE | GROWER CHAMPAGNE

*many (but not all) of the champagnes listed in the following sections are made by small growers producers, named for the simple fact that all of their wines are created from grapes which they farm themselves. unlike the grand marques, who purchase a majority of their fruit from many villages across the large champagne region, growers usually focus on one village (or terroir). these exciting producers offer an opportunity to taste the many terroirs of champagne side by side, which is invariably masked in blends from the large houses. the very best growers are making wines that give the large houses a run for their money.*

## CHAMPAGNE | CÔTE DE BLANCS

*a thin band of white chalky soil emerges in this tiny region of champagne and allows for the greatest blanc de blancs champagne to be made. wines from the grand cru villages of le mesnil-sur-ogere and avize are the crème de la crème, but they are trailed closely behind by oger, cramant, oiry, cuis, vertus, and chouilly.*

## CHAMPAGNE | MONTAGNE DE REIMS

*if the cote de blancs produces the most delicate and ethereal wines in champagne, the montagne de reims (where pinot noir reigns supreme) produces its most powerful. montagne de reims wines have the versatility to pair through an entire meal. bouzy, verzenay, ambonnay, and verzy are villages that stand above the rest.*

## CHAMPAGNE | VALLÉE DE LA MARNE

*the cool valley created by the marne river is the perfect climate for pinot meunier. historically seen as just a blending grape, many producers in this region are showcasing its ability to stand alone. cumieres, ay, and mareuil-sur-ay are the most important villages of the marne, with bisseuil, romery, and avenay-val d'or emerging as "ones to watch".*

## WHITES OF THE MEDITERRANEAN

*the mediterranean was the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties*

## LEBANON

*it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous to. gaston hochar, inspired by his friend roland barton to plant vinifera grapes in lebanon, returned with cuttings from chateau leoville barton. for his white grand vin he sourced grapes local to lebanon, obadieh and merwah, which are thought to be related to chardonnay, semillon, and chasselas. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).*

### SOUTHERN ITALY | SICILY, SARDEGNA, CAMPANIA, ABRUZZO

*when the greeks arrived in italy, they originally named it oenotria: land of the vine. in ancient rome, the most prized wines in all of italy (i.e. falernum, alban, caecuban) were produced south of rome. these wines were the original grand crus of the wine world.*

## WHITES OF CONTINENTAL EUROPE

*the top wine regions of continental europe exist as a result of the church and its desire to expand. starting in the middle ages, wine became an integral component of the sacrament and followed catholicism through its expansion. some of the most iconic wines of the world including burgundy, champagne, alsace, and the mosel have the catholic church to thank.*

### FRANCE | BURGUNDY

*by 910ce benedictine and cistercian monks found themselves in burgundy tending vines under charlemagne. the vineyards were slowly delineated, and the best wines went to the church. many of the vineyards, documented centuries ago, still produce some of the most sought after wines in the world.*

### SPAIN | BALEARIC ISLANDS

*according to pliny the elder, in the age of antiquity the wines of mallorca were "comparable to some of rome's finest". Following the phylloxera epidemic of the 1800's, mallorca's vineyards were uprooted and replanted to pistachios and almonds. today there is renewed interest in this island due to its unique set of indigenous grape varieties grown nowhere else.*

## ROSE WINES

*historically, rose has been viewed as a simple wine. and though there are "simple" roses (just as there are also simple whites and reds), there are also roses as compelling, ageworthy, and terroir driven as their friends of other colors. the mediterranean is a hotbed for distinct styles of rose, spanning those which are salmon in color, to some that might be confused for a very light red.*

## REDS OF THE MEDITERRANEAN

*the mediterranean is the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and, by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties*

### LEBANON

*it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous to gaston hochar, inspired by his friend roland barton to plant cabernet-sauvignon in lebanon, château leoville barton. gaston also planted cinsault and carignan to complete the blend. the resulting wines are spicy, powerful, returned with cuttings from and age effortlessly. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).*

## ITALY

*before 1861, hundreds of city states comprised what we now refer to as Italy. look no further than the cuisine and wines of these former city states to see that every region has a distinct cultural identity. combined, over 475 grape varieties (many of which are planted nowhere else) span Italy's length, which is longer than Texas! although latitude plays an important role in the styles of wines that are made in each region, equally impactful is a region's proximity to the coast. below, we separate the coastal areas which share more in common with other*

### THE ISLANDS | SARDEGNA

### FRANCE | SOUTHERN RHÔNE VALLEY

*pope boniface viii (famously depicted in the eighth circle of hell in dante's inferno) set off a chain of events that changed the french wine landscape forever. in 1309 ce, the avignon papacy was born as a result of his feud with king phillip iv, ultimately resulting in his abduction and death. the papacy split and avignon pope (john xii) thereafter developed a papal vineyard: châteauneuf-du-pape (chateau of the new pope). this is the premier region in the world for grenache, blended with up to 17 other indigenous grape varieties.*

### FRANCE | NORTHERN RHÔNE VALLEY

*in the 17th and 18th century, the wines of hermitage were sold at prices dwarfing what are now first growth bordeaux estates. famously, some bordeaux producers at the time added rhone wines to their blend to add strength and complexity. today the wines of the northern rhone are incredibly undervalued given they demonstrate the height that syrah is capable of.*

### FRANCE | BURGUNDY

*red burgundy has an impressive ability to age for decades... but impatience also has its rewards. the following pages follow the specific villages of burgundy north to south, all of whom produce unique and distinctive wines. but first, this page celebrates the emerging regions of burgundy, which often produce delightfully rustic wines despite being less well known.*

#### GEVREY-CHAMBERTIN

*gevrey is the northernmost bastion for truly fine red wines in burgundy. its 26 premier crus and 9 grand crus specialize in wines that are full bodied and muscular. these are pinots with darker, smokier, and earthier fruit tones than you'll find anywhere else on the cote. the best examples include armand rousseau, fourrier, and bachelet... but the good news is, there are too many to count!*

### MOREY-ST.-DENIS

*the power of gevey-chambertin meets the glorious aromatics of chambolle-musigny. morey was once overshadowed by its neighbors yet today it is gaining the respect it deserves. a conversation about this village wouldn't be complete without the mention of producers like dujac, mommessin, ponsot, hubert lignier, and domaine des lambrays.*

### CLOS DE LA ROCHE GRAND CRU

*this vineyard has grown in size over the last hundred years, and now engulfs several previous 1er cru vineyards not deserving of grand cru status. however, the heart of the vineyard is a true grand cru, and one only has to go so far as to taste a bottle from ponsot, lignier, or leroy to witness its true potential.*

LABOURÉ-ROI 1995	657

### CLOS SAINT-DENIS GRAND CRU

*though once the most important grand cru in morey, today it is overlooked and sometimes underperforms. but taste a bottle from domaine dujac, and you'll see the heights it is capable of achieving.*

## RED OF CONTINENTAL EUROPE

### CHAMBOLLE-MUSIGNY

*what chambolle-musigny lacks in power, it makes up tenfold in grace. this tiny village has 25 premier crus and its 2 grand cru vineyards, bonnes mares and musigny, rank amongst the best. roumier, mugnier, fourrier, and de vogue are the standard bearers, but in reality a bottle of chambolle-musigny from any domaine is likely to be a special experience.*

### MUSIGNY GRAND CRU

*musigny has the capability to produce burgundy's most ethereal wines. only at times is it eclipsed by la tache, chambertin, and romanee-conti. these wines are delicate in body but powerfully aromatic, and they age effortlessly.*

J-F MUGNIER 2015	7805
------------------	------

### VOUGEOT

*located between chambolle-musigny and vosne-romanee, this small village has more grand cru land in proportion to its size than any other village in burgundy. in addition to the grand cru, this village also boasts four spectacular premier cru vineyards.*

BERTAGNA 'LES CRAS,' 1ER CRU 1978	805
-----------------------------------	-----

### CLOS DE VOUGEOT GRAND CRU

*the largest grand cru of the cote de nuits and also the source of its most inconsistent wines, this single vineyard has over 80 owners, some of whom produce wines not deserving of a grand cru status. however the best of them can hold their own against some of the more fashionable grand cru wines.*

FRANÇOIS LAMARCHE 2012	459
LEYMARIE-COSTE 1949	3150

### VOSNE-ROMANÉE

### RICHEBOURG GRAND CRU

GROS FRÈRE ET SŒUR 1986 1690

### LA ROMANÉE GRAND CRU

*at .8 hectares, here is france's smallest appellation. this monopole of comte liger belair produces wines that are mythical in rarity.*
