## CHAMPAGNE & SPARKLING WINE

### CHAMPAGNE | GRAND MARQUE CHAMPAGNE

*the top "grande marque" houses have set the benchmark for consistency and quality in champagne. rarely are "tete-de-cuvees" eclipsed in their ageworthiness and overall elegance by the grower producers, who are often more fashionable than the big houses since arriving on the scene in the last 30 years.*

## CHAMPAGNE & SPARKLING WINE

### CHAMPAGNE | GROWER CHAMPAGNE

many (but not all) of the champagnes listed in the following sections are made by small growers producers, not for the simple fact that all of their wines are created from grapes which they farm themselves. unlike the grand cru who purchase a majority of their fruit from many villages across the large champagne region, growers usually focus on one village (or terroir). these exciting producers offer an opportunity to taste the many terroirs of champagne side by side, which is invariably masked in blends from the large houses. the very best growers are making wines that give the large houses a run for their money.

### CHAMPAGNE | CÔTE DE BLANCS

a thin band of white chalky soil emerges in this tiny region of champagne and allows for the greatest blanc de champagne to be made. wines from the grand cru villages of le mesnil-sur-ogers and avize are the crème de la crème but they are trailed closely behind by ogers, cramant, oiry, cuis, vertus, and chouilly.

### CHAMPAGNE | MONTAGNE DE REIMS

if the cote de blancs produces the most delicate and ethereal wines in champagne, the montagne de reims (where pinot noir reigns supreme) produces its most powerful. montagne de reims wines have the versatility to stand up through an entire meal. bouzy, verzenay, ambonnay, and verzy are villages that stand above the rest.

### CHAMPAGNE | VALLÉE DE LA MARNE

the cool valley created by the marne river is the perfect climate for pinot meunier. historically seen as just a byproduct, many producers in this region are showcasing its ability to stand alone. cumieres, ay, and mareuil-sur-ay are the most important villages of the marne, with bisseuil, romery, and avenay-val d'or emerging as "ones to watch."

champagne's wild west (well south actually). these lesser known areas are the source of many of the innovations today in champagne.

## WHITES OF THE MEDITERRANEAN

*the mediterranean was the cradle of civilization, as well as the likely birthplace of the vine. historians believe encountered wine grapes in modern day lebanon and by 4100 bce, domesticated them in modern day armen the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though c antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear and historic importance. it is believed two-thirds of the vine varieties on earth are indigenous to the mediterranean and we believe that these wines are natural accompaniments to great mediterranean ingredients found on our*

### LEBANON

*it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous. gaston hochar, inspired by his friend roland barton to plant vinifera grapes in lebanon, returned with cuttings from château leoville barton. for his white grand vin he sourced grapes local to lebanon, obadieh and merwah, which thought to be related to chardonnay, semillon, and chasselas. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).*

### SOUTHERN ITALY | SICILY, SARDEGNA, CAMPANIA, ABRUZZO

*when the greeks arrived in italy, they originally named it oenotria: land of the vine. in ancient rome, the most prized wines in all of italy (i.e. falernum, alban, caecuban) were produced south of rome.*

*these wines were the original grand crus of the wine world.*

## WHITES OF CONTINENTAL EUROPE

### SPAIN | GALICIA

*just as the church brought the wine grape to northern europe, it also brought the wine grape into the iberean peninsula after an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century as the moorish rule began to collapse. devout catholics traveled from as far as modern day czech to reach st. james' reputed burial site at santiago de compostela in galicia. along the way, grape vines were used for sacramental purposes and many grapes in spain today likely came from countries along this journey.*

## ROSÉ & ORANGE WINES

### ORANGE WINES

*"orange wines" are white wines made like red wines. the grape skins are not removed prior to fermentation. these wines are dark in color, rich in texture, and have a flavor profile that is entirely different from any other*

### ROSÉ WINES

*historically, rose has been viewed as a simple wine. and though there are "simple" roses (just as there are also simple whites and reds), there are also roses as compelling, ageworthy, and terroir driven as their friends of other colors. the mediterranean is a hotbed for distinct styles of rose, spanning those which are salmon in color, to some that might be confused for a very light red.*

## REDS OF THE MEDITERRANEAN

*the mediterranean is the cradle of civilization, as well as the likely birthplace of the vine. historians believe hu encountered wine grapes in modern day lebanon and, by 4100 bce, domesticated them in modern day armer the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though c antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear and historic importance. it is believed two-thirds of the vine varieties on earth are indigenous to the mediterranean and we believe that these wines are natural accompaniments to great mediterranean ingredients found on ou*

### LEBANON

*it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous to. gaston hochar, inspired by his friend roland barton to plant cabernet-sauvignon in lebanon, returned with cuttings from château leoville barton. gaston also planted cinsault and carignan to complete the the resulting wines are spicy, powerful, and age effortlessly. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).*

## REDS OF EUROPE

### ITALY

*before 1861, hundreds of city states comprised what we now refer to as Italy. Look no further than the cuisine of these former city states to see that every region has a distinct cultural identity. Combined, over 475 grape varieties (many of which are planted nowhere else) span Italy's length, which is longer than Texas! Although latitude plays an important role in the styles of wines that are made in each region, equally impactful is a region's proximity to the sea. Below, we separate the coastal areas which share more in common with other Mediterranean regions (like Greece and southern France) from inland ones which share more in common with cooler continental regions (like Burgundy).*

### FRANCE | SOUTHERN RHÔNE VALLEY

pope boniface viii (famously depicted in the eighth circle of hell in dante's inferno) set off a chain of events that changed the french wine landscape forever. in 1309 ce, the avignon papacy was born as a result of his feud with king philip the fourth, ultimately resulting in his abduction and death. the papacy split and avignon pope (john xii) thereafter developed the papal vineyard: châteauneuf-du-pape (chateau of the new pope). this is the premier region in the world for red wine, blended with up to 17 other indigenous grape varieties.

### FRANCE | NORTHERN RHÔNE VALLEY

*in the 17th and 18th century, the wines of hermitage were sold at prices dwarfing what are now first growth bordeaux estates. famously, some bordeaux producers at the time added rhone wines to their blend to add strength and today the wines of the northern rhone are incredibly undervalued given they demonstrate the heights that syrah is capable of.*

*red burgundy has an impressive ability to age for decades... but impatience also has its rewards. the following the specific villages of burgundy north to south, all of whom produce unique and distinctive wines. but first, th celebrates the emerging regions of burgundy, which often produce delightfully rustic wines despite being less*

### THE BACKROADS OF BURGUNDY

### GEVREY-CHAMBERTIN

*gevrey is the northernmost bastion for truly fine red wines in burgundy. its 26 premier crus and 9 grand crus specialize in wines that are full bodied and muscular. these are pinots with darker, smokier, and earthier fruit than you'll find anywhere else on the cote. the best examples include armand rousseau, fourrier, and bachele but the good news is, there are too many to count!*

## MOREY-ST.-DENIS

*the power of gevrety-chambertin meets the glorious aromatics of chambolle-musigny. morey was once overshadowed by its neighbors yet today it is gaining the respect it deserves. a conversation about this village wouldn't be complete without the mention of producers like dujac, mommessin, ponsot, hubert lignier, and domaine des lambrays.*

<b>10027786</b>	Michel Magnien 2016	162

## CLOS DE LA ROCHE GRAND CRU

*this vineyard has grown in size over the last hundred years, and now engulfs several previous 1er cru vineyards deserving of grand cru status. however, the heart of the vineyard is a true grand cru, and one only has to taste a bottle from ponsot, lignier, or leroi to witness its true potential.*

<b>10068040</b>	Louis Remy 1978	520

## CHAMBOLLE-MUSIGNY

*what chambolle-musigny lacks in power, it makes up tenfold in grace. this tiny village has 25 premier crus and grand cru vineyards, bonnes mares and musigny, rank amongst the best. roumier, mugnier, fourrier, and de vogue are the standard bearers, but in reality a bottle of chambolle-musigny from any domaine is likely to be a special experience.*

<b>10068134</b>	Robert Groffier 'Les Hautes Doix' 1er Cru 2004	625

## MUSIGNY GRAND CRU

*musigny has the capability to produce burgundy's most ethereal wines. only at times is it eclipsed by la tache and romanée-conti. these wines are delicate in body but powerfully aromatic, and they age effortlessly.*

<b>10026011</b>	Comtes George de Vogüé Vieilles Vignes 2011	2,600
-----------------	---	-------

## CLOS DE VOUGEOT GRAND CRU

*the largest grand cru of the cote de nuits and also the source of its most inconsistent wines, this single vineyard is owned by over 80 owners, some of whom produce wines not deserving of a grand cru status. however the best of them stand up to their own against some of the more fashionable grand cru wines.*

<b>10068107</b>	Anne Gros 'Le Grand Maupertui' 2004	799
<b>10068009</b>	Jean-Philippe Marchand 1993	560

## VOSNE-ROMANÉE

*the king of the hill. this is the heart of burgundy, and more frequently than any other village, is the source of its finest wines. vosne encompasses 24 premier crus and 8 grand crus, some of whom quite literally are the source of the finest wines on earth. burgundy's greatest producer, domaine de la romanee-conti, is based here along with many other great domaines like anne gros, francois lamarche, comte liger-belair, sylvain cathiard, and emmanuel rouget.*

<b>10026091</b>	Anne Gros 'Les Lochausses' 2012	996

<b>10068105</b>	Anne Gros 2003	2,600
<b>10068104</b>	Anne Gros 2004	2,200

## NUITS-ST.-GEORGES

*the dark horse. although it contains no grand cru villages, 41 premier crus demonstrate why this is the most underrated commune in the cote de nuits. the wines are dark and spicy, and sometimes rough around the edges... but in a charming way.*

<b>10068004</b>	Domaine de l'Arlot 'Clos des Forêts-Saint Georges' 1er Cru 2003	465
<b>10068041</b>	Moillard-Grivet 1959	3,800

## CORTON GRAND CRU

*the largest grand cru in burgundy, and the only grand cru for red wine in the cote de beaune region. these pinots lack the aromatic lift of their more northerly neighbors, but make up for it in their sheer power. its most compelling wines come from coche-dury, meo camuzet, louis latour, domaine de la romanee-conti, and chandon.*

<b>10024815</b>	Genot-Boulangier 'Greves' 1er Cru 2014	192

## REDS OF EUROPE

### SPAIN

*just as the church brought the wine grape to northern europe, it also brought it back into the iberean peninsula in an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century & moorish rule began to collapse. devout catholics traveled from as far as modern day czech republic to reach a reputed burial site at santiago de compostela in galicia. along the way, grape vines were planted for sacramental purposes and many grapes in spain today likely came from countries along this journey.*
