

WINE BY THE GLASS

RETSINA

3oz | 9oz

with roots that date at least back to 200 b.c.e., retsina is greece's most iconic wine as well as it's most misunderstood. for centuries, retsina has been made by a unique method that consists of blending the wine with sap from the aleppo pine tree, an ingredient with preservative qualities to prevent spoilage. historically, most retsina was made from the typically uninteresting savatiano variety as the pine resin would cover up what was a low quality wine to begin with. today many of greece's top producers are giving retsina a second look, but this time

CHAMPAGNE & SPARKLING WINE

CHAMPAGNE | GRAND MARQUE CHAMPAGNE

the top "grande marque" houses have set the benchmark for consistency and quality in champagne. rarely are their "tete-de-cuvees" eclipsed in their age-worthiness and overall elegance by the grower producers, who are often considered more fashionable than the big houses since arriving on the scene in the last 30 years.

CHAMPAGNE | GROWER CHAMPAGNE

many (but not all) of the champagnes listed in the following sections are made by small growers producers, named for the simple fact that all of their wines are created from grapes which they farm themselves. unlike the grand marques, who purchase a majority of their fruit from many villages across the large champagne region, growers usually focus on one village (or terroir). these exciting producers offer an opportunity to taste the many terroirs of champagne side by side, which is invariably masked in blends from the large houses. the very best growers are making wines that give the large houses a run for their money.

CHAMPAGNE | CÔTE DE BLANCS

a thin band of white chalky soil emerges in this tiny region of champagne and allows for the greatest blanc de blancs champagne to be made. wines from the grand cru villages of le mesnil-sur-ogere and avize are the crème de la crème, but they are trailed closely behind by oger, cramant, oiry, cuis, vertus, and chouilly.

CHAMPAGNE | MONTAGNE DE REIMS

if the cote de blancs produces the most delicate and ethereal wines in champagne, the montagne de reims (where pinot noir reigns supreme) produces its most powerful. montagne de reims wines have the versatility to pair through an entire meal. bouzy, verzenay, ambonnay, and verzy are villages that stand above the rest.

CHAMPAGNE | VALLÉE DE LA MARNE

the cool valley created by the marne river is the perfect climate for pinot meunier. historically seen as just a blending grape, many producers in this region are showcasing its ability to stand alone. cumieres, ay, and mareuil-sur-ay are the the most important villages of the marne, with bisseuil, romery, and avenay-val d'or emerging as "ones to watch".

WHITES OF THE MEDITERRANEAN

the mediterranean was the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties

LEBANON

it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous to. gaston hochar, inspired by his friend roland barton to plant vinifera grapes in lebanon, returned with cuttings from chateau leoville barton. for his white grand vin he sourced grapes local to lebanon, obadieh and merwah, which are thought to be related to chardonnay, semillon, and chasselas. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).

when the greeks arrived in italy, they originally named it oenotria: land of the vine. in ancient rome, the most prized wines in all of italy (i.e. falernum, alban, caecuban) were produced south of rome. these wines were the original grand crus of the wine world.

northern italy is more famous for its reds than its whites. however, verdicchio, garganega, and vermentino, demonstrate how the white grapes of the north can be equally nuanced and fascinating.

the greeks founded marseilles in 600 bce. it is generally accepted that this was the first true wine region in modern day france. though, for millenia wines from the "sud" have been prized, in post wwii-europe they were forgotten about due to neglect and overproduction. today these regions have awakened and are sources of incredible whites, rich in both aroma and texture.

WHITES OF CONTINENTAL EUROPE

the top wine regions of continental europe exist as a result of the church and its desire to expand. starting in the middle ages, wine became an integral component of the sacrament and followed catholicism through its expansion. some of the most iconic wines of the world including burgundy, champagne, alsace, and the mosel have the catholic church to thank.

FRANCE | BURGUNDY

by 910ce benedictine and cistercian monks found themselves in burgundy tending vines under charlemagne. the vineyards were slowly delineated, and the best wines went to the church. many of the vineyards, documented centuries ago, still produce some of the most sought after wines in the world.

THE BACKROADS OF BURGUNDY

the best producers make equally great wines from humble vineyard holdings as they do with their grand crus. the producers below are making exciting wines from up-and-coming areas in burgundy.

ROSE WINES

historically, rose has been viewed as a simple wine. and though there are "simple" roses (just as there are also simple whites and reds), there are also roses as compelling, ageworthy, and terroir driven as their friends of other colors. the mediterranean is a hotbed for distinct styles of rose, spanning those which are salmon in color, to some that might be confused for a very light red.

REDS OF THE MEDITERRANEAN

the mediterranean is the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and, by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties

LEBANON

it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous to gaston hochar, inspired by his friend roland barton to plant cabernet-sauvignon in lebanon, château leoville barton. gaston also planted cinsault and carignan to complete the blend. the resulting wines are spicy, powerful, returned with cuttings from and age effortlessly. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).

ITALY

before 1861, hundreds of city states comprised what we now refer to as Italy. look no further than the cuisine and wines of these former city states to see that every region has a distinct cultural identity. combined, over 475 grape varieties (many of which are planted nowhere else) span Italy's length, which is longer than Texas! although latitude plays an important role in the styles of wines that are made in each region, equally impactful is a region's proximity to the coast. below, we separate the coastal areas which share more in common with other

pope boniface viii (famously depicted in the eighth circle of hell in dante's inferno) set off a chain of events that changed the french wine landscape forever. in 1309 ce, the avignon papacy was born as a result of his feud with king phillip iv, ultimately resulting in his abduction and death. the papacy split and avignon pope (john xii) thereafter developed a papal vineyard: châteauneuf-du-pape (chateau of the new pope). this is the premier region in the world for grenache, blended with up to 17 other indigenous grape varieties.

in the 17th and 18th century, the wines of hermitage were sold at prices dwarfing what are now first growth bordeaux estates. famously, some bordeaux producers at the time added rhone wines to their blend to add strength and complexity. today the wines of the northern rhone are incredibly undervalued given they demonstrate the height that syrah is capable of.

BERTAGNA 'LES CRAS,' 1ER CRU 1978 805

CLOS DE VOUGEOT GRAND CRU

the largest grand cru of the cote de nuits and also the source of its most inconsistent wines, this single vineyard has over 80 owners, some of whom produce wines not deserving of a grand cru status. however the best of them can hold their own against some of the more fashionable grand cru wines.

GRANDS-ECHÉZEAUX GRAND CRU

echezeaux's overperforming sibling who seldom disappoints. grands-echezeaux wines have the impossibly perfect ratio of subtlety to power, coupled with a seductive, velvety texture that will make you weak in the knees.

GROS-COLLETTE 1957 2700

RICHEBOURG GRAND CRU

one of vosne-romanée's most principal pieces of real estate, divided between 11 owners. richebourg produces vosne's most dense and tannic wines, sometimes they even require decades to arrive at the beginning of their peak drinking window.

NUITS-ST.-GEORGES

the dark horse. although it contains no grand cru villages, 41 premier crus demonstrate why this is the most underrated commune in the cote de nuits. the wines are dark and spicy, and sometimes rough around the edges... but in a charming way.

when the romans arrived in bordeaux, they heavily planted the hills around saint-emilion, believing this to be the the best area for quality wine. ironically, most of these underrated wines play second fiddle to more well known estates on the left bank, which wouldn't be heavily planted for over a millenia.

it wasn't until the 17th century that the most sought after bordeaux vineyards were planted. the reason: they were under water! specialists in manipulating waterways, the dutch traders decided to drain the marshes and swampland of the left bank so that they could expedite the transportation of bordeaux wine. a happy accident occurred when they realized what was underneath

just as the church brought the wine grape to northern europe, it also brought it back into the iberean peninsula after an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century as the moorish rule began to collapse. devout catholics traveled from as far as modern day czech republic to reach st. james' reputed buirial site at santiago de compostela in galicia. along the way, grape vines were planted for sacramental purposes and many grapes in spain today likely came from countries along this journey.
