## SAKE (NIHON-SHU) | 日本酒

*Sake is a traditional Japanese drink that is made from fermented rice. It has been consumed and used for religious ceremonies for over 2000 years now.*

*Japan is a country known for its customs and traditions, and sake, a traditional drink also involves traditions and customs.*

*For many centuries now sake has been shared by family members and friends and is a drink that is raised to toast the most important bonds in life. It is believed that you should not pour your own cup of sake, but it must be poured by a friend and likewise. Sake is a drink that is to be shared and enjoyed with the people that you love and revere.*

*Five crucial elements are involved in brewing sake – water, rice, technical skill, yeast and land/weather. More than anything else, sake is a result of a brewing process that uses rice and lots of water. Water comprises as much as 80% of the final product, so fine water and fine rice are natural prerequisites if one hopes to brew great sake. But beyond that, the technical skill needed to pull this all off lies with the Toji (head brewers), the type of yeast they use, and the limitations entailed by local land and weather conditions.*

## JUNMAI | 純米

*This can be translated as pure rice sake. Nothing is used in its production except rice, water, and koji, junmai is made with rice that has been polished (milled) so that at least 30% of the outer portion of each rice grain has been ground away. The taste of Junmai is usually a bit heavier and fuller than other types, and the acidity is often a touch higher as well.*

## HONJOZO | 本醸造

*Honjozo is sake to which a very small amount of distilled alcohol (called brewers alcohol) has been added to the fermenting sake at the final stages of production. Honjozo is made with rice that has been milled so that at least 30% of the outer portion of each rice grain has been ground away. This process makes the sake lighter, sometimes a bit drier, and in the opinion of many, easier to drink. It also makes the fragrance of the sake more prominent.*

## JUNMAI GINJO | 純米吟醸

*Junmai Ginjo is made with no added alcohol. It is more delicate and light and complex than the above two Junmai and Honjozo. On top of that, special yeast, lower fermentation temperatures, and labor-intensive techniques make for fragrant, intricate brews.*

## GINJO | 吟醸

*Ginjo is made with rice that has been milled away 40%. It is made in a very labor intensive way, fermented at colder temperatures for a longer period of time. The flavor is more complex and delicate, and both the flavor and the fragrance are often fruity and flowery.*

## JUNMAI DAIGINJO | 純米大吟醸

*Junmai Daiginjo is made with no added alcohol. The rice has been milled so that no more than 50% of the original size of the grains remains, and even more care has been taken to create sake representative of the pinnacle of the craft.*

## DAIGINJO | 大吟醸

*Daiginjo is made with rice polished even more, so that no more than 50% of the original size of the grain remains.*

## HOT SAKE BY THE BOTTLE

熱燗 - 四合瓶

*Sake has been enjoyed warm since long ago, and many producers keep that tradition alive. The taste of sake changes with temperature. We chose the temperature which best matches the food or the season. The ideal temperature for sake also depends on the type of sake. We warm it in a small decanter, in a pool of hot water.*

## JAPANESE WHISKY | 日本のウイスキー

*We are honored to select from some of the finest distilleries in Japan to bring this refined and nuanced category of Whisky into your glass and into your hands.*

*Beyond this page you will find a wealth of blends, single malts, and world whiskies thoughtfully assembled in Japan.*

### *A note on the term "Japanese Whisky"*

*The Japan Spirits & Liqueurs Makers Association announced new labeling standards, focusing on transparency. Though the involved producers choose to do so voluntarily, the association requires anything labeled as Japanese whisky to use malted grains and water extracted in Japan; to keep certain elements of processing in Japan, including fermentation, distillation, and bottling, and to be matured in wood casks for at least three years*

This blended malt is a blend of Komagatake single malt casks with Sherry and American white oak casks filled with Chichibu single malt sent to the Shinshu distillery for aging.*

### MARS TSUNUKI

**"THE FIRST" TSUNUKI | SINGLE MALT** 40/80

BRIOCHE, NUTMEG, FRESH PEACH

*The new distillery from Mars is in a starkly different climate than Mars Shinshu. Both have access to excellent quality water, but the Tsunuki distillery has much higher humidity and great temperature fluctuations. Stylistically, the single malts coming from Tsunuki are heavy and thick in contrast to the elegant and refined malts from Shinshu. Suntory and Nikka are also noted as having two distilleries with opposing production styles to provide balance and control in their blends.*

### MARS TSUNUKI

**TSUNUKI LIMITED EDITION 2022 | SINGLE MALT** 45/90

FRESH APPLE JUICE, STEWED PEAR, OILY PEAT

*This limited edition single malt from the Tsunuki distillery is aged in both first and second fill bourbon casks. This is a character-driven single malt that is dynamic from the nose all the way through to a long finish.*

### KAIYŌ

#### KAIYO MIZUNARA OAK | MALT WHISKY

22

BAKING SPICES, CREME BRULEE, SANDALWOOD

*These casks are among the rarest casks in the world and are considered the finest in which to mature whisky. Distilled and matured in Japan, the casks then undergo a three-month ocean voyage from Osaka to Liverpool before bottling to encourage further flavorsome interactions. The whisky is fairly delicate, with tropical fruits like banana and pineapple on the nose, a common aroma and character of the Mizunara cask.*

### KAIYŌ

#### KAIYO MIZUNARA OAK "THE SINGLE" 7YR | SINGLE MALT

24

JASMINE FLOWERS, MANGO, COCONUT

*The Single, a 7 year old whisky, made of all malted barley and produced on a Coffey still in Japan, is matured in American Oak ex-Kentucky Bourbon barrels before spending additional time finishing in both Japanese Mizunara oak and ex-Tennessee Whiskey barrels. Made from malted barley, it remains un-chillfiltered, and enjoys a three-month ocean maturation that helps bring out the unique flavors that can only be obtained from Mizunara Oak.*

### KAIYŌ

#### KAIYO MIZUNARA OAK "THE PEATED" MADEIRA CASK SINGLE MALT

38

PLUM, CARAMEL, GREEN APPLE

*The Peated is matured initially for two years in ex-Madeira wine barrels to impart a sweetness and softening balance to its level of peat. It is then transferred to Japanese Mizunara Oak, where it continues to mature for the rest of its days until Kaiyo's Master Blender deems it ready for bottling and enjoyment. Enthusiastically nicknamed the "Sweet Peat". Peat is present, but is finely balanced with exotic fruit notes and rich honey.*

### KAIYŌ

#### KAIYO MIZUNARA OAK "THE RUBI" RUBY PORT PIPES FINISH MALT WHISKY

22/42

TOASTED MARSHMALLOW, SPEARMINT, DARK CHOCOLATE

*Aged for three years in Japanese Mizunara oak before heading out to sea like all of Kaiyo's whiskies, for three months. Upon returning to Japan, it ages a further seven years before being briefly rested in former Ruby port pipes for four months.*

26/52

CITRUS ZEST, CLOVE, DRIED APRICOT
