Cristal was created in 1876 to satisfy the demanding tastes of Tsar Alexander II. The emperor asked Louis Roederer to reserve the House's best cuvée for him every year. He was particularly fond of the House's wine. To distinguish this cuvée, this exceptional champagne came in a flat-bottomed, transparent lead-crystal bottle. The new brand was named after this precious material, which is particularly transparent and luminous.

CHAMPAGNE & SPARKLING WINE

CHAMPAGNE | GRAND MARQUE CHAMPAGNE

the top "grande marque" houses have set the benchmark for consistency and quality in champagne. rarely are their "tete-de-cuvees" eclipsed in their ageworthiness and overall elegance by the grower producers, who are often considered more fashionable than the big houses since arriving on the scene in the last 30 years.

WHITES OF THE MEDITERRANEAN

the mediterranean was the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties on earth are indigenous to the mediterranean, and we believe that these wines are natural accompaniments to great mediterranean ingredients found on our menu.

NORTHERN ITALY | TUSCANY, LIGURIA, MARCHE, PIEDMONT, VENETO, TRENTINO

northern italy is more famous for its reds than its whites. however, gewurztraminer, verdicchio, garganega, and vermentino, demonstrate how the white grapes of the north can be equally nuanced and fascinating.

FRANCE | PROVENÇE, RHÔNE, AND LANGUEDOC-ROUSSILLON

the greeks founded marseilles in 600 bce. it is generally accepted that this was the first true wine region in modern day france. though, for millenia wines from the "sud" have been prized, in post wwii-europe they were forgotten about due to neglect and overproduction. today these regions have awakened and are sources of incredible whites, rich in both aroma and texture.

WHITES OF CONTINENTAL EUROPE

the top wine regions of continental europe exist as a result of the church and its desire to expand. starting in the middle ages, wine became an integral component of the sacrament and followed catholicism through its expansion. some of the most iconic wines of the world including burgundy, champagne, alsace, and the mosel have the catholic church to thank.

FRANCE | BURGUNDY

by 910ce benedictine and cistercian monks found themselves in burgundy tending vines under charlemagne. the vineyards were slowly delineated, and the best wines went to the church. many of the vineyards, documented centuries ago, still produce some of the most sought after wines in the world.

THE BACKROADS OF BURGUNDY

the best producers make equally great wines from humble vineyard holdings as they do with their grand crus. the producers below are making exciting wines from up-and-coming areas in burgundy.

WHITES OF THE NEW WORLD

SPAIN | GALICIA

just as the church brought the wine grape to northern europe, it also brought the wine grape into the iberean peninsula after an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century as the moorish rule began to collapse. devout catholics traveled from as far as modern day czech republic to reach st. james' reputed buirial site at santiago de compostela in galicia. along the way, grape vines were planted for sacramental purposes and many grapes in spain today likely came from countries along this journey.

SPAIN | CATALONIA AND BASQUE COUNTRY

though technically part of spain, catalonia and basque country consider themselves independent and have on several recent occasions attempted to secede from the rest of spain. this basque corner of spain has a unique cultural identity, and this is exemplified by its unique cuisine, ciders, and wines.

rioja is renowned for its legendary, long lived reds. its whites, based on viura and malvasia, are lesser known as they comprise a minor proportion of thew regions wines. however, the best of them are equally long lived and perhaps the most ageworthy dry white wine made anywhere.

WHITES OF THE NEW WORLD

free from the shackles of appellation d'origine laws, the new world is a vigneron's paradise. with both mediterranean and continental climates, great winemakers take inspiration from their old-world counterparts and the true possibilities are endless. the following section celebrates the achievements of the new world, and many of these wines are made by our friends.

ROSE WINES

historically, rose has been viewed as a simple wine. and though there are "simple" roses (just as there are also simple whites and reds), there are also roses as compelling, ageworthy, and terroir driven as their friends of other colors. the mediterranean is a hotbed for distinct styles of rose, spanning those which are salmon in color, to some that might be confused for a very light red.

REDS OF THE MEDITERRANEAN

the mediterranean is the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and, by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties on earth are indigenous to the mediterranean, and we believe that these wines are natural accompaniments to great mediterranean ingredients found on our menu.

ITALY

before 1861, hundreds of city states comprised what we now refer to as italy. look no further than the cuisine and wines of these former city states to see that every region has a distinct cultural identity. combined, over 475 grape varieties (many of which are planted nowhere else) span italy's length, which is longer than texas! although latitude plays an important role in the styles of wines that are made in each region, equally impactful is a region's proximity to the coast. below, we separate the coastal areas which share more in common with other mediterranean regions (like greece and southern france) from inland ones which share more in common with cooler continental regions (like burgundy and rioja).

FRANCE | SOUTHERN RHÔNE VALLEY

pope boniface viii (famously depicted in the eighth circle of hell in dante's inferno) set off a chain of events that changed the french wine landscape forever. in 1309 ce, the avignon papacy was born as a result of his feud with king phillip iv, ultimately resulting in his abduction and death. the papacy split and avignon pope (john xiii) thereafter developed a papal vineyard: châteauneuf-du-pape (chateau of the new pope). this is the premier region in the world for grenache, blended with up to 17 other indigenous grape varieties.

FRANCE | NORTHERN RHÔNE VALLEY

in the 17th and 18th century, the wines of hermitage were sold at prices dwarfing what are now first growth bordeaux estates. famously, some bordeaux producers at the time added rhone wines to their blend to add strength and complexity. today the wines of the northern rhone are incredibly undervalued given they demonstrate the height that syrah is capable of.

GEVREY-CHAMBERTIN

gevreys is the northernmost bastion for truly fine red wines in burgundy. its 26 premier crus and 9 grand crus specialize in wines that are full bodied and muscular. these are pinots with darker, smokier, and earthier fruit tones than you'll find anywhere else on the cote. the best examples include armand rousseau, fourrier, and bachelet... but the good news is, there are too many to count!

MAZIS-CHAMBERTIN GRAND CRU

If Ruchottes produces the lightest, most elegant grand cru wines of Gevrey, Mazis produces one of its most powerful. deep, seductive wines that require years to come into their own.

BOUCHARD PERE 2005	788
--------------------	-----

CHAPELLE-CHAMBERTIN GRAND CRU

one of the smallest grand crus in gevreys and thus one of the hardest to track down. A great chapelle combines the supple fruitiness of charmes with the raw power of le chambertin.

CLAUDE DUGAT 1997	2877
-------------------	------

CHARMES-CHAMBERTIN GRAND CRU

as the name suggests, these are some of the most "charming" and fruit-forward wines in gevreys. they can age easily for decades, but they outshine their neighbors by displaying how nuanced and open they are in their youth.

JOSEPH ROTIE 2004	1492
-------------------	------

GRIOTTE-CHAMBERTIN GRAND CRU

although wines from gevreys-chambertin are known for being strong and muscular, griotte typically produces wines that are a bit more nuanced, aromatic, and balanced.

MOREY-ST.-DENIS

the power of gevey-chambertin meets the glorious aromatics of chambolle-musigny. morey was once overshadowed by its neighbors yet today it is gaining the respect it deserves. a conversation about this village wouldn't be complete without the mention of producers like dujac, mommessin, ponsot, hubert lignier, and domaine des lambrays.

the largest grand cru of the cote de nuits and also the source of its most inconsistent wines, this single vineyard has over 80 owners, some of whom produce wines not deserving of a grand cru status. however the best of them can hold their own against some of the more fashionable grand cru wines.

VOSNE-ROMANÉE

the king of the hill. this is the heart of burgundy, and more frequently than any other village, is the source of its greatest wines. vosne encompasses 24 premier crus and 8 grand crus, some of whom quite literally are the source of the rarest wines on earth. burgundy's greatest producer, domaine de la romanee-conti, is based here along with many other great domaines like anne gros, francois lamarche, comte liger-belair, sylvain cathiard, and emmanuel rouget.

CORTON GRAND CRU

the largest grand cru in burgundy, and the only grand cru for red wine in the cote de beaune region. these powerful pinots lack the aromatic lift of their more northerly neighbors, but make up for it in their sheer power. its most compelling wines come from coche-dury, meo camuzet, louis latour, domaine de la romanee-conti, and chandon de brailles.

FRANCE | RIGHT BANK BORDEAUX

when the romans arrived in bordeaux, they heavily planted the hills around saint-emilion, believing this to be the best area for quality wine. ironically, most of these underrated wines play second fiddle to more well known estates on the left bank, which wouldn't be heavily planted for over a millenia.

it wasn't until the 17th century that the most sought after bordeaux vineyards were planted. the reason? they were under water! specialists in manipulating waterways, the dutch traders decided to drain the marshes and swampland of the left bank so that they could expedite the transportation of bordeaux wine. a happy accident occurred when they realized what was underneath.

SAINT-ESTÈPHE

the northernmost top commune of the left bank and the commune most affected by vintage variation. in great vintages these can be some of the most spicy, exotic, and graceful wines on this side of the gironde river.

SPAIN

just as the church brought the wine grape to northern europe, it also brought it back into the iberean peninsula after an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century as the moorish rule began to colapse. devout catholics traveled from as far as modern day czech republic to reach st. james' reputed buirial site at santiago de compostela in galicia. along the way, grape vines were planted for sacramental purposes and many grapes in spain today likely came from countries along this journey.
