

CHAMPAGNE

Champagne is a single Appellation d'origine controllee but the territory is divided into next sub-regions, known as wine-producing districts, and each of them has distinct characteristics. The main wine-producing districts of the Champagne wine region: Reims, Marne Valley, Côte des Blancs, Côtes des Bar, Côtes de Sezzane. As a general rule, grapes used must be the white Chardonnay, or the dark red wine grapes Pinot Noir or Pinot Meunier, which, due to the gentle pressing of the grapes and absence of skin contact during fermentation, usually also yield a white base wine. Most Champagnes, including Rose wines, are made from a blend of all three grapes, although blanc de blancs ("white from whites") Champagnes are made from 100% Chardonnay and blanc de noirs ("white from blacks") Champagnes are made solely from Pinot noir, Pinot meunier or a mix of the two.

ROEDERER CHAMPAGNE FLIGHT

Cristal was created in 1876 to satisfy the demanding tastes of Tsar Alexander II. The emperor asked Louis Roederer to reserve the House's best cuvée for him every year. He was particularly fond of the House's wine. To distinguish this cuvée, this exceptional champagne came in a flat-bottomed, transparent lead-crystal bottle. The new brand was named after this precious material, which is particularly transparent and luminous.

CHAMPAGNE | GRAND MARQUE CHAMPAGNE

the top "grande marque" houses have set the benchmark for consistency and quality in champagne. rarely are their "tete-de-cuvees" eclipsed in their ageworthy and overall elegance by the grower producers, who are often considered more fashionable than the big houses since arriving on the scene in the last 30 years.

CHAMPAGNE | GROWER CHAMPAGNE

many (but not all) of the champagnes listed in the following sections are made by small growers producers, named for the simple fact that all of their wines are created from grapes which they farm themselves. unlike the grand marques, who purchase a majority of their fruit from many villages across the large champagne region, growers usually focus on one village (or terroir). these exciting producers offer an opportunity to taste the many terroirs of champagne side by side, which is invariably masked in blends from the large houses. the very best growers are making wines that give the large houses a run for their money.

WHITES OF THE MEDITERRANEAN

the mediterranean was the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties on earth are indigenous to the mediterranean, and we believe that these wines are natural accompaniments to great mediterranean ingredients found on our menu.

WHITES OF CONTINENTAL EUROPE

the top wine regions of continental europe exist as a result of the church and its desire to expand. starting in the middle ages, wine became an integral component of the sacrament and followed catholicism through its expansion. some of the most iconic wines of the world including burgundy, champagne, alsace, and the mosel have the catholic church to thank.

FRANCE | BURGUNDY

by 910ce benedictine and cistercian monks found themselves in burgundy tending vines under charlemagne. the vineyards were slowly delineated, and the best wines went to the church. many of the vineyards, documented centuries ago, still produce some of the most sought after wines in the world.

just as the church brought the wine grape to northern europe, it also brought the wine grape into the iberean peninsula after an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century as the moorish rule began to collapse. devout catholics traveled from as far as modern day czech republic to reach st. james' reputed buirial site at santiago de compostela in galicia. along the way, grape vines were planted for sacramental purposes and many grapes in spain today likely came from countries along this journey.

ROSE WINES

historically, rose has been viewed as a simple wine. and though there are "simple" roses (just as there are also simple whites and reds), there are also roses as compelling, ageworthy, and terroir driven as their friends of other colors. the mediterranean is a hotbed for distinct styles of rose, spanning those which are salmon in color, to some that might be confused for a very light red.

REDS OF THE MEDITERRANEAN

the mediterranean is the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and, by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties on earth are indigenous to the mediterranean, and we believe that these wines are natural accompaniments to great mediterranean ingredients found on our menu.

LEBANON

it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous to gaston hochard, inspired by his friend roland barton to plant cabernet-sauvignon in lebanon, château leoville barton. gaston also planted cinsault and carignan to complete the blend. the resulting wines are spicy, powerful, returned with cuttings from and age effortlessly. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).

ITALY

before 1861, hundreds of city states comprised what we now refer to as Italy. look no further than the cuisine and wines of these former city states to see that every region has a distinct cultural identity. combined, over 475 grape varieties (many of which are planted nowhere else) span Italy's length, which is longer than Texas! although latitude plays an important role in the styles of wines that are made in each region, equally impactful is a region's proximity to the coast. below, we separate the coastal areas which share more in common with other Mediterranean regions (like Greece and southern France) from inland ones which share more in common with cooler continental regions (like Burgundy and Rioja).

pope boniface viii (famously depicted in the eighth circle of hell in dante's inferno) set off a chain of events that changed the french wine landscape forever. in 1309 ce, the avignon papacy was born as a result of his feud with king phillip iv, ultimately resulting in his abduction and death. the papacy split and avignon pope (john xii) thereafter developed a papal vineyard: châteauneuf-du-pape (chateau of the new pope). this is the premier region in the world for grenache, blended with up to 17 other indigenous grape varieties.

FRANCE | NORTHERN RHÔNE VALLEY

in the 17th and 18th century, the wines of hermitage were sold at prices dwarfing what are now first growth bordeaux estates. famously, some bordeaux producers at the time added rhone wines to their blend to add strength and complexity. today the wines of the northern rhone are incredibly undervalued given they demonstrate the height that syrah is capable of.

red burgundy has an impressive ability to age for decades... but impatience also has its rewards. the following pages follow the specific villages of burgundy north to south, all of whom produce unique and distinctive wines. but first, this page celebrates the emerging regions of burgundy, which often produce delightfully rustic wines despite being less well known.

GEVREY-CHAMBERTIN

gevrey is the northernmost bastion for truly fine red wines in burgundy. its 26 premier crus and 9 grand crus specialize in wines that are full bodied and muscular. these are pinots with darker, smokier, and earthier fruit tones than you'll find anywhere else on the cote. the best examples include armand rousseau, fourrier, and bachelet... but the good news is, there are too many to count!

CHAPELLE-CHAMBERTIN GRAND CRU

one of the smallest grand crus in gevrey and thus one of the hardest to track down. A great chapelle combines the supple fruitiness of charmes with the raw power of le chambertin.

CLAUDE DUGAT 1997	2877
-------------------	------

CHARMES-CHAMBERTIN GRAND CRU

as the name suggests, these are some of the most "charming" and fruit-forward wines in gevrey. they can age easily for decades, but they outshine their neighbors by displaying how nuanced and open they are in their youth.

JOSEPH ROTIE 2004	1492
-------------------	------

GRIOTTE-CHAMBERTIN GRAND CRU

although wines from gevrey-chambertin are known for being strong and muscular, griotte typically produces wines that are a bit more nuanced, aromatic, and balanced.

MOREY-ST.-DENIS

the power of gevey-chambertin meets the glorious aromatics of chambolle-musigny. morey was once overshadowed by its neighbors yet today it is gaining the respect it deserves. a conversation about this village wouldn't be complete without the mention of producers like dujac, mommessin, ponsot, hubert lignier, and domaine des lambrays.

CHAMBOLLE-MUSIGNY

what chambolle-musigny lacks in power, it makes up tenfold in grace. this tiny village has 25 premier crus and its 2 grand cru vineyards, bonnes mares and musigny, rank amongst the best. roumier, mugnier, fourrier, and de vogue are the standard bearers, but in reality a bottle of chambolle-musigny from any domaine is likely to be a special experience.

CLOS DE VOUGEOT GRAND CRU

the largest grand cru of the cote de nuits and also the source of its most inconsistent wines, this single vineyard has over 80 owners, some of whom produce wines not deserving of a grand cru status. however the best of them can hold their own against some of the more fashionable grand cru wines.

MICHEL GROS 2022	1550
------------------	------

VOSNE-ROMANÉE

the king of the hill. this is the heart of burgundy, and more frequently than any other village, is the source of its greatest wines. vosne encompasses 24 premier crus and 8 grand crus, some of whom quite literally are the source of the rarest wines on earth. burgundy's greatest producer, domaine de la romanee-conti, is based here along with many other great domaines like anne gros, francois lamarche, comte liger-belair, sylvain cathiard, and emmanuel rouget.

just as the church brought the wine grape to northern europe, it also brought it back into the iberean peninsula after an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century as the moorish rule began to colapse. devout catholics traveled from as far as modern day czech republic to reach st. james' reputed buirial site at santiago de compostela in galicia. along the way, grape vines were planted for sacramental purposes and many grapes in spain today likely came from countries along this journey.

NAPA VALLEY

The Mondavi Legacy

"The story of Continuum is the continuation of one of Napa Valley's most influential wine legacies. For more than a century, four generations of the Mondavi family have dedicated themselves to elevating the quality, reputation, and global recognition of California wine. What began with Cesare Mondavi's vision and entrepreneurial spirit was transformed by Robert Mondavi's relentless pursuit of excellence, innovation, and belief that Napa Valley wines could stand alongside the finest wines in the world. After the sale of the Robert Mondavi Winery in 2004, Tim Mondavi and Marcia Mondavi Borger Founded Continuum in 2005 to preserve and advance that family vision. Continuum represents not only a new chapter, but the culmination of generations of experience, passion, and commitment to crafting world-class wines that express a singular sense of place. As Tim Mondavi has said, 'For four generations our family has created a continuum of wine excellence, enhancing the celebration of life'."
